
STRING v12.0; hub rank = Degree only (not the full cytoHubba six-algorithm consensus). Random-set P < 1e-4 for both pools at 0.4 and 0.7 (10,000 draws; minimum attainable 1/10,001). Panel D: P is the hypergeometric test against the STP background (original filter: 0.995). Scheme A: 134 core targets.
